

Matewan Pk-8

NTI

Grade Level: 1st – 5th

Content Area: Science

Date: May 14, 2020

Teacher: M. Bays

Teacher's email: marsha.hackney@k12.wv.us

Another way to contact me is: 606-984-5080

Note from Teacher:

Hello Class!!! I hope each of you and your families are continuing to do well! Only ten more lessons to complete for me and then you are officially on summer break. I sure do miss you!!!! If you have any questions about these assignments, please have your parents to contact me.

Today's Lesson:

Log on to [Starfall.com](https://www.starfall.com) and watch the interactive video on Earth Day!

If you don't have internet try this activity with your family:

It might seem like it's everywhere, but clean, drinkable water is a limited resource. In fact less than one percent of the water on Earth can be used by humans. (The rest is either too salty or too difficult to access.) Turning off the faucet when you brush your teeth can conserve up to eight gallons of water a day. To help save even more water, challenge yourself to take a shorter shower (but still get clean!).
