2nd Grade Classroom assignment for 4th 9 weeks of school.

Parents please let your child know that I miss them and can not wait to see them again. I want to give my students something fun to do while they are home to hopefully be a fun assignment taking their minds off what is going on with the COVID-19 Virus. This is the first of two assignments for the 4th-9 weeks of school. The two assignments will be graded, and grades will be posted in live grades.

*Submit the first assignment by May 1, 2020; the second assignment submit by May 15, 2020.

1. First assignment:

In class we read a couple of books and then drew an illustration of the book (example: The hungry caterpillar. Please ask your child about this book. I am sure they will tell you about it and their drawings)

Take any book and read to your child or let the child read to you. Have them to draw, and then color their illustration.

Here is a book example: You can use this book as well if you want.

Art Media: any type of paper (size: at least 8x11 or size of notebook paper or typing paper), poster board, or construction paper; crayons, watercolors, or tempera paint.

2nd Assignment:

Students, summer is coming!!! Let's do something fun with water and a sea turtle. You can follow the instructions on art media to make your project. Remember to color the background first and then work toward the front. The front is the last to color, and that will be your turtle. I am excited to see your work!!! Have Fun!!! Do great art!!!

Have fun and make great art at home. I cannot wait to see your artistic work!!!

Sending love and hugs to all my students.

Mrs. Teresa Smith, Art Teacher
